# SPINEXPO™ SHANGHAI

## 25-27 FEBRUARY 2020

SHANGHAI WORLD EXPO CONVENTION & EXHIBITION CENTRE  
1099 GUOZHAN ROAD - PUDONG - SHANGHAI

9.00 AM TO 6.00 PM – 25-26 FEBRUARY 2020

9.00 AM TO 4.00 PM – 27 FEBRUARY 2020

SPINEXPO™ is the indispensable meeting place for anyone using yarns and fibres and developing knitwear garments. It addresses knitters, weavers, hosiery manufacturers and ready-to-wear brand manufacturers with collections of flat-bed and circular knits.

SPINEXPO™ also presents a Knitwear Pavilion composed of top-level knitwear manufacturers proposing their latest collections. SPINEXPO™ brings to Shanghai the world's most comprehensive and selective international offer in the field of creative yarns and fibres, knitwear and knitted fabrics.

**COMPLIMENTARY ADMISSION FOR QUALIFIED TRADE PROFESSIONALS  
& MEMBERS OF THE PRESS ONLY. NOMINAL BUSINESS CARD MATCHING  
YOUR PRE-REGISTRATION INFORMATION IS MANDATORY.**

## FEW EXHIBITING COMPANIES:

**SPINEXPO™ Shanghai also showcase an important offer in the sector of functional and technical yarns. We are highlighting a few exhibiting companies.**

### HANLIAN

produce coloured blended spun yarns and specialize in the production and development of viscose melange and blends, using the emerging technology of renewable polyester, waste textile research and development. Their coloured rayon and T/R spun yarns are patented for their development and production by two national invention patent and eighteen utility patents.

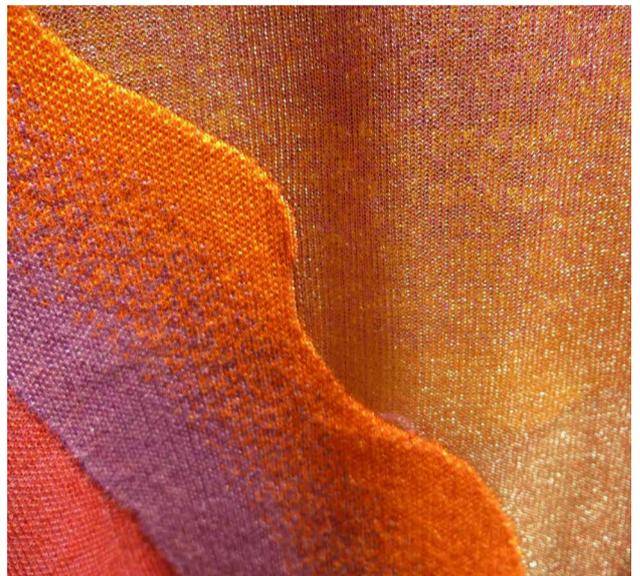

### MINGYUE TEXTILE TECHNOLOGY

specialises in the R&D and production of super-fine denier and multifilament conventional covered yarn, with specifications as follows: 2030/72F, 1008/5F, 2012/7F, 2070/7F, 2070/48F, 68F, 5040/36F and 4075/72F. They provide research and development through to production for all kinds of knitting yarns, including viscose, cotton/rayon, cotton and linen, imitation linen plus many more compositions in various yarn counts. The range of application for the company's yarns includes circular knitting, flat-bed knitting, textiles, scarves, knitted garments, jerseys, fabrics as well as air and water jet machines."

### GLOBAL CHEMICAL FIBER

is one of Dupont's licensee using Sorona fibres. They produce filaments and functional yarns including Easy Dyeing Cationic Polyester yarns which can be dyed at around 85° and offer excellent colour fastness and soft peeling; also low melting yarns that can melt at 110°C and can adhere with any other yarns as glue. The latest product is BIO-DIN, 100% bio-degradable within 6 months.

### XIANYUE TEXTILE

produces corrosion resistant film, friction film, extinction film, no formaldehyde film. The Company provides cutting metal film into 0.1 mm filaments, and using such filaments and viscose, nylon, silk into extremely soft gold and silver wire as well as metal staple of 12m 10 micron 0.05 mm, with a fineness of about 8.5 Denier. The metal staple can be blended with cotton, wool and so on to form textile yarns.
