THE VISION OF THE EXHIBITORS FOR THE S/S 2022 SEASON:

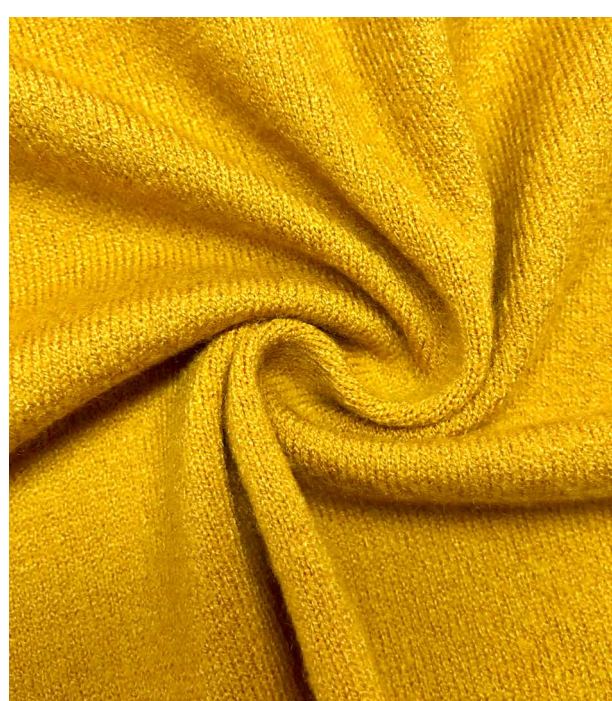

YILEI strives to follow the trends for sustainable and environmental-friendly products by reducing the pollution caused during the dying process, and promotes multiple choices of raw undyed cashmere: light grey, dark grey and white cashmere. Mostly in counts of 2/48nm and 2/60nm, the worsted raw cashmere yarn is light, delicate, skin-friendly with clear texture.

YILEI will mainly focus on the domestic market in 2021, while maintaining active contact with the export markets in a positive manner.

In response to customers who expect short delivery and stock service, YILEI has prepared a multiple colour books, among which JADE, a colour book of worsted cashmere with 75 colour-options; ZEN, a worsted wool cashmere blended yarn book with 30 colours and GRACE, a worsted wool yarn book with 30 colours.

The new COLLECTION BOOK covers 23 categories of YILEI's main products, with a short introduction of each product, enabling customers to quickly recognize YILEI's stock services and professional skill. YILEI's newly-developed TREND BOOK is expected to show more colour-matchings of their stock-colours and fabric pattern pieces bringing inspiration to their customers.

YILEI are still quite positive toward the prospect of textile economy in the future.

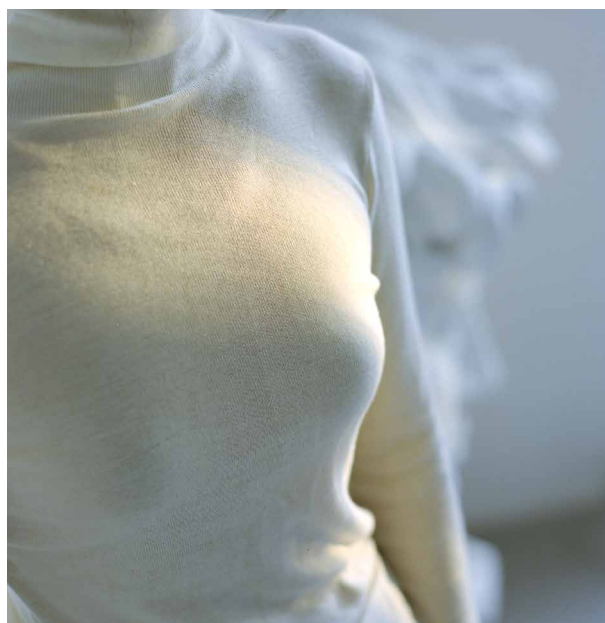

With the understanding that more and more customers are consulting environmentally friendly products in recent years, HAPPY YARN has launched 3 groups of Lenzing EcoVero products to meet the requirements of environmentally friendly customers. At the same time, with the increasing demand for small orders and quick reaction, HAPPY YARN insist on providing fast stock Service as a positioning, and can currently provide 70 kind of products with stock service, to meet more customers' requirements

HAPPY YARN remain optimistic about the domestic market demand, and conservative regarding export markets due to the fluctuations in the exchange rate, price and supply in raw materials and competition from Southeast Asia.

YILEI: UNDYED CASHMERE WORSTED YARNS OCCUPY A CRUCIAL PLACE FOR SS 2022

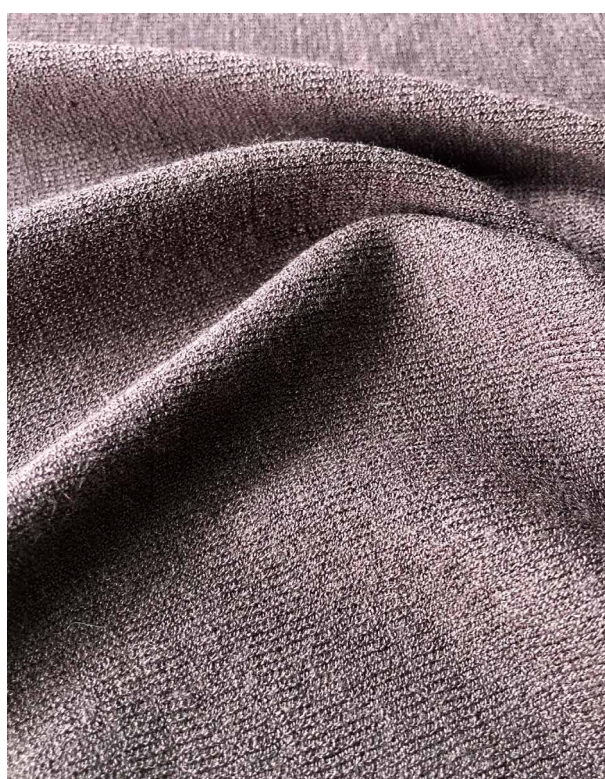

The worsted luxury blend of silk and cashmere is regarded as YILEI's key products for S/S 2022. Starting from their classical article GEM 30/70 silk cashmere yarn, YILEI tried multiple percentages of blends of silk and cashmere; JODIE, a 55/45 silk cashmere yarn keeps the brightness of silk and the richness and softness of cashmere, with a texture that is clean and smooth. With the help of silk, the fabric is light and transparent, moisture absorbent and sweat-releasing, well adapted to the summer season. Other silk cashmere blending percentages can be found in 20/80 MAVIS and 10/90 IRIS; these multiple choices are designed to satisfy customers who chase for different sensations and visual appearances.

HAPPY YARN LAUNCHES 8 GROUPS OF NEW PRODUCTS FOR SS 2022

HAPPY YARN is launching 2 groups of products using Lenzing EcoVero Viscose to meet environmental requirements (product code HZ04A, HZ08); and 4 groups of fine/cool/dry style (product code: HS08/HS09/HS11/HS16), suitable for Spring/Summer design inspiration, with stock service available.

HAPPY YARN increased the development of domestic customers using online and offline platforms. With a wide selection of products and stock services, HAPPY YARN hope and believe that they can increase the proportion of the domestic market.
