PRE-REGISTRATION IS MANDATORY - NO ONSITE ENTRY

Art comes to SPINEXPO™

Yarn is at the heart of any creation

and as such is essential to any textile, knitwear and weave creations
as well as textile coatings and covers and many other uses.

But it can be used in many other ways and is becoming an especially
key element in the production of artistic creations.

Whether it be the creation of sophisticated clothing, decorative weaving or the decoration of household objects, spinners have been sharing their research and their creations with our designers, some of whom have chosen to interpret them artistically. The long periods of lockdown in these designers' native countries have given them the opportunity to take their time, to look for other uses for yarns and textile materials, to plumb the depths of their talent in order to offer visitors to the next edition of SPINEXPO Shanghai an entirely personal interpretation based on the exhibitor's yarns.

Called "Yarn Art", this new trend space aims to be a different source of inspiration, an area of peace and pure beauty. The techniques used are within everyone's reach; in these difficult times, the organisers have found it useful to approach the creative work of the spinning companies from a new, more spiritual, more emotional, more personal angle.

This additional inspirational space will complement the various trend zones at a show specialising solely in the fibre, yarn and knitwear textile sectors, where the research and developments of the exhibitors combines with the talents of designers from different horizons, continents and countries to offer a global vision of the creativity that is inspiring brands from all over the world.

WE LOOK FORWARD TO SEEING YOU THERE.
