## Concept of Frontline

Together with Lenzing Austria, SPINEXPO™ initiated a project called Concept Of Frontline, to partner with experts from different fields and seek for innovative solution in the field of fibres.

The collaboration with the world class fibre supplier Lenzing (Austria), a pioneer in waterless garment processing, Jeanologia (Spain) and some of the top yarn spinning craftsmen from SPINEXPO™ such as Yarns & Colors, Zhejiang Xinao and Xinfang, has resulted in a joint research team that always held the highest scientific and aesthetic standard during the process.

The result will be presented in the fibre trend area at the next SPINEXPO™ Shanghai exhibition, together with other developments and innovations from many fibres promoters and developers. An important seminar program dedicated to new fibres will take place during the two days of the show.

This program of seminars will be detailed in a former e.newsletter.

**WE LOOK FORWARD TO SEEING YOU THERE.**
