### M.ORO: MAKE CASHMERE MORE SPLENDID SUSTAINABLE DEVELOPMENT OF CASHMERE INDUSTRY

#### M.ORO

is located in Qinghe County, Xingtai City, Hebei Province and is a textile industry group integrating research and development of textile products, processing and sales of cashmere products, goods and technology import and export, and electronic information technology services.

M.ORO relies on its own pasture resources and has a strong raw material inventory reserve advantage. The spinning mill brings a strong colour card stock service and can respond quickly to improve customer's efficiency.

While delivering high-quality fibers, M.ORO incorporates environmental protection and social responsibility as corporate standards and pays attention to the healthy ecology of the growth environment of purebred Albas goats. M.ORO established a traceability system, formulated organic cashmere standards, obtained certification from international authoritative organizations. M.ORO strives to provide the industry with high-quality cashmere yarns in guaranteed quality.

tion from international authoritative organizations. M.ORO strives to provide the industry with high-quality cashmere yarns in guaranteed quality.

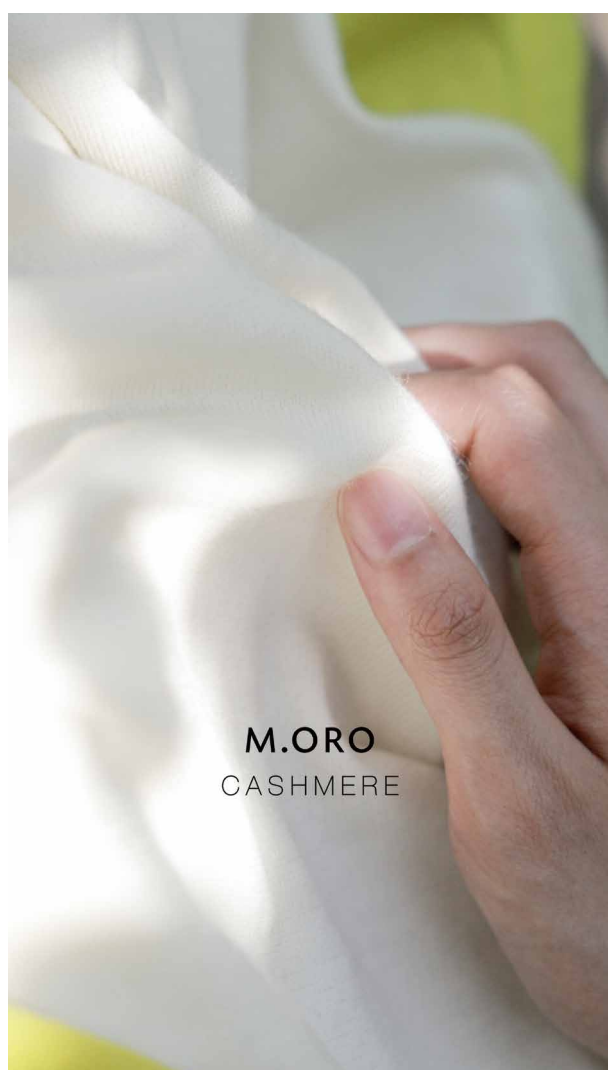

**For the coming session M.ORO will promote the following products :**

#### M.ORO PREMIER

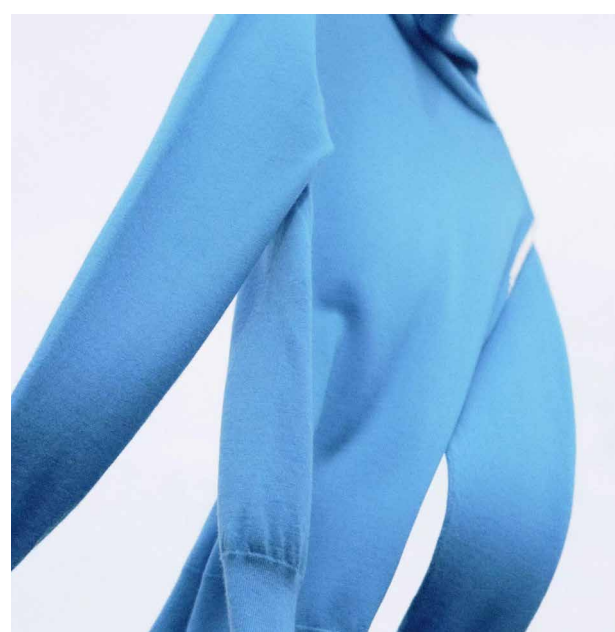

High-standard cashmere raw material, combined with Australian mercerized wool, using Italian spinning technology brings an extraordinary sense of refinement. Handfeel is soft and silky, skin-friendly and delicate. The color inspiration comes from the natural landscapes and conveys a high-level and meaningful sense of quality.

#### UNDYED CASHMERE LUNA

A 2/15NM was added to the 2/26NM count to make LUNA yarn collection more fluffy, soft and delicate. By producing undyed cashmere, it will save 5.5-6 tons of steam resources, 60 to 100 tons of water resources and 200-500 KWH of electricity resources. By using fiber length 36 to 38 mm and micro 15.5 to 15.8um, it creates an excellent fibre strength which retains the most characteristics of cashmere.

M.ORO  
CASHMERE

#### PREMIUM CASHMERE JADE & RUBY

100% high-luxury pure cashmere. Excellent raw materials combined with top Italian spinning technology, bring the unparalleled comfort of cashmere. Soft and fluffy, flexible, light and breathable and soft in color.

#### HIGH END BLEND CASHMERE AMBER & QUARTZ

70% wool/30% cashmere and 90% wool/10% cashmere blended materials have both the soft and waxy touch of cashmere and the clear skinny feel of wool, giving the yarn a richer layering : a perfect combination showing a unique sense of quality.

#### DON'T FORGET
