SPINEXPO™ KEY DIRECTIONS FOR S/S 2025 YARNS

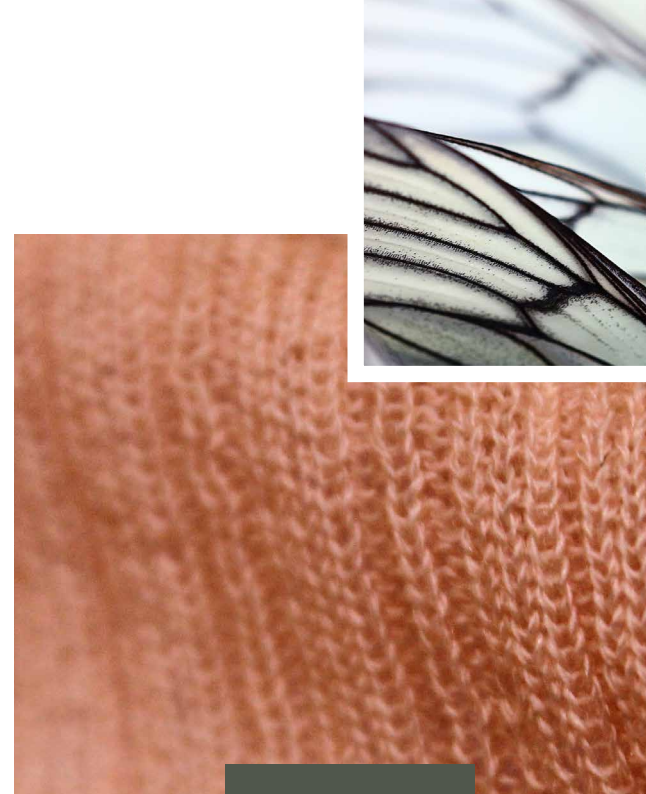

Spinners create novelty knitwear with a focus on ouster and fine gauges.

FLUID FEATHERWEIGHT

YIWAGO

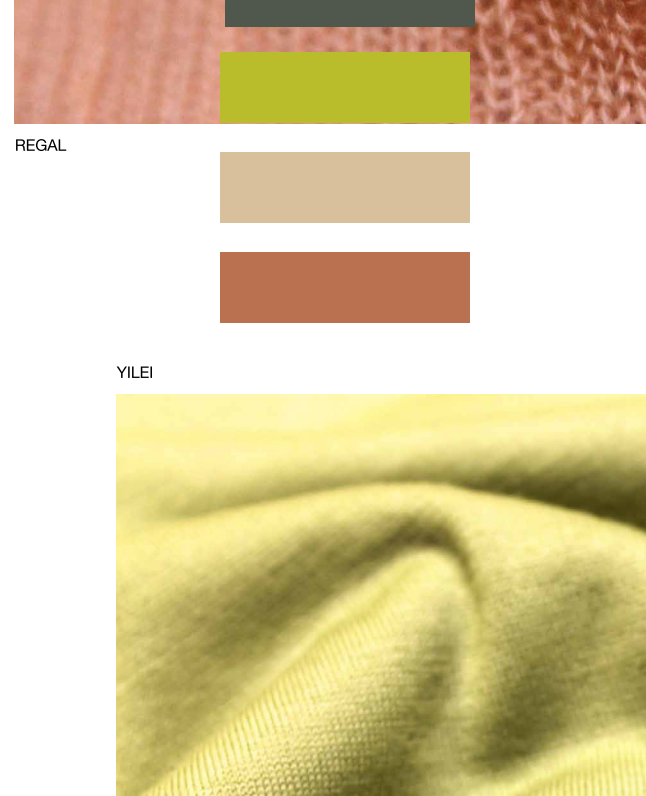

Lightness is a key trend for all yarns, including new fall yarns that they are developing now, with many saying that the hot climates we are experiencing due to global warming is creating a high demand for transseasonal yarns that can be worn for longer periods of time. Fine wools and silk blends are reinvigorated for a timeless appeal of breathable fibres.

GLOSSY LIGHT

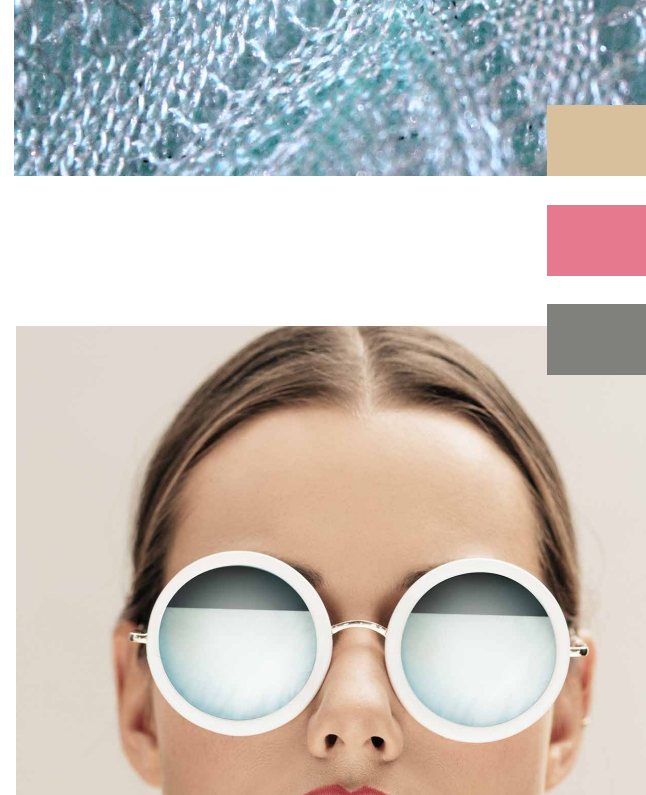

Silk and acetate yarns were a noticeable new addition, with mills creating lightweight and shiny items that carry perfectly through to the hottest days of summer. The cooling properties of these silky yarns work perfectly with pointelle and open stitches providing further relief from the heat.
