Minimalism is a design style and an attitude towards a simpler and more authentic life. Minimalist master Jil Sander once said, "The more you take away, the purer it becomes." In the long evolutionary journey of fashion, a perfect balance has been achieved between color, texture, and silhouette, integrating self-expression, deconstructing and reshaping the ideology of life customs and aesthetic standards, and discovering novelty in seemingly ordinary places.

SPLT0788 is a minimalist-style core-spun yarn. It has a dry hand feel, smooth surface, and anti-pilling grade up to level 3. Its fine count can be used to create ready-to-wear in different styles. Embraces simplify, comfort, and life.
