19-20-21 AUGUST 2025

WORLD EXPO EXHIBITION & CONVENTION CENTER

1099 GUOZHAN RD, PUDONG - SHANGHAI - CHINA

Opening hours: Days 1 & 2: 9.00 - 6.00 pm / Day 3: 9.00 - 4.00 pm

SPINEXPO™ constitutes a chain of information, verification, coordination, reaching to decisions in brands collections and strategy, all over the world of textile. Discovering and identifying new discoveries in fibers research, technology, dyeing processes, new construction designs, inspirations, is the only real innovation process.

For the past 30 years, the team behind SPINEXPO™ has worked incessantly in this direction. The exhibition went from Shanghai to Paris (Europe), New York and Los Angeles (USA) and Hong Kong to come closer to buyers.

**Preregistration is compulsory: [www.spinexpo.com](http://www.spinexpo.com)**

**No registration on site with or without business cards.**

**Non-registered visitors coming on day 1 will not be admitted before day 2 or 3, after going through the preregistration process.**

### PROFILE OF EXHIBITOR

#### YANA TEXTILE

#### EXPLORING NEW FRONTIERS OF PERFORMANCE KNITWEAR

*True innovation lies in weaving technology seamlessly into every aspect of daily life. As lifestyles evolve and sportswear becomes part of everyday attire, knitwear is challenged to deliver not only comfort and warmth, but also performance features like stretch, quick-drying ability, and antibacterial properties.*

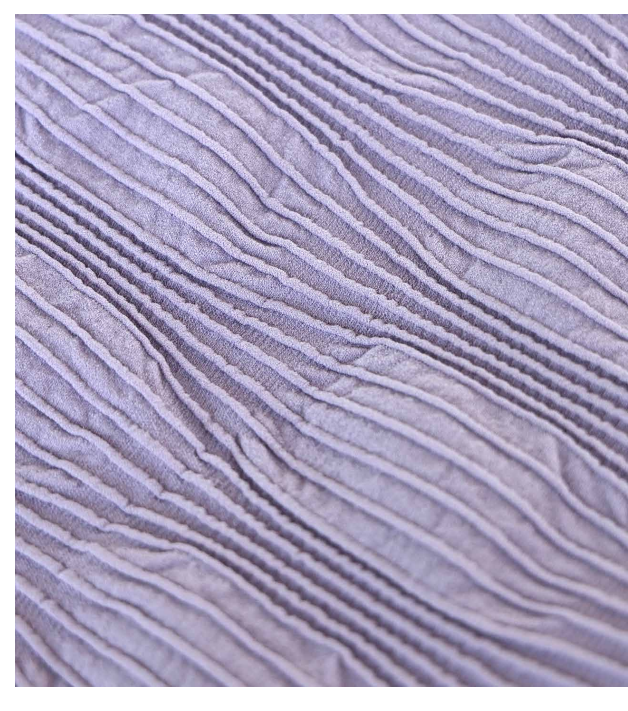

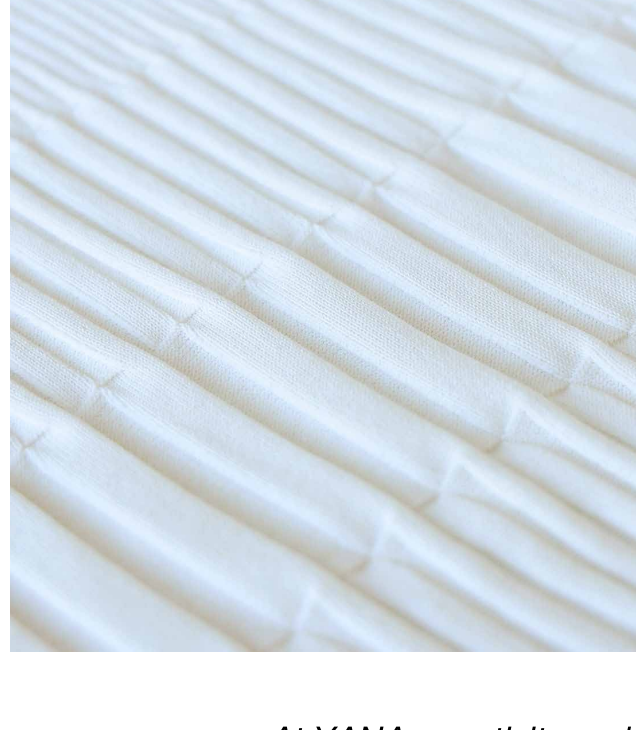

With over three decades of dedication to the knitwear yarn industry, YANA TEXTILE has always placed the needs of the wearer at the center of their mission. From humble beginnings as a twisting mill, YANA has grown into a full-service yarn solution provider—spinning, dyeing, and designing with vision and precision. YANA has become a leading supplier of spring/summer knitwear yarns, known especially for its expertise in stretch yarns and silk blends. In a highly competitive market, they continue to provide fashion brands with stylish, high-performing yarns at fair prices, staying true to their core belief: quality, above all.

Today, in response to shifting market demands, YANA is stepping out of their comfort zone and into new terrain. The latest innovation fuses cutting-edge materials—COOLMAX® for breathability, Elite PBT for ultra-comfort stretch, and Naia™ Acetate for quick-drying antibacterial properties—into a new generation of performance-driven knitwear yarns.

#### **Thermocool**

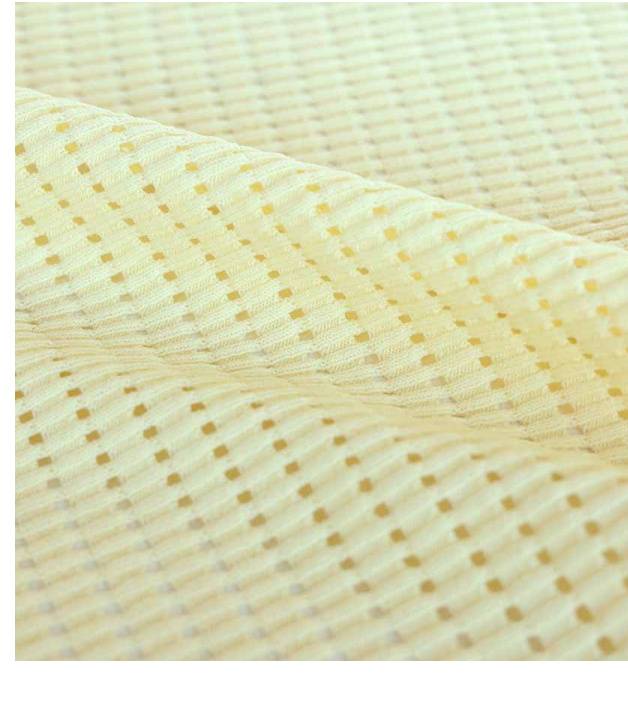

Thermocool represents a scientific leap forward in spinning innovation. By wrapping high-performance COOLMAX® fibers in a core-sheath structure with natural wool and silky acetate, YANA created a yarn that keeps the body warm while actively managing moisture and breathability. Ideal for outdoor adventures and city life alike, this yarn embodies the functional-chic aesthetic of modern activewear.

#### **Angelic**

Inspired by cloudlike aesthetics and designed with dimensionality in mind, Angelic is a 3D composite yarn that blends the breathable warmth of wool with the luminous elegance of acetate. The dual-helix structure entwines both fibers, preserving the softness of wool while introducing a draping sheen reminiscent of angel wings.

It's a reimagination of plush luxury with a light, celestial touch.

#### **Wonderland**

Drawing inspiration from an enchanted forest, Wonderland is a tactile dream. Fancy loop twisting technology entwines wool and Tencel into voluminous boucle loops, while nylon filaments wrap like forest vines for structure and durability.

The result is a yarn that flows like moonlight and feels like forest mist—soft, dimensional, and evocative.

At YANA, creativity and refinement are in their DNA.

The Chinese character “雅” (Yǎ) represents inner elegance and virtue; “娜” (Nà) symbolizes gentle grace. Together, “Yana” expresses the reverence for the harmony of nature, humanity, and design.

YANA believes true beauty lies not only in appearance but in spirit—and through every thread, they hope to move the hearts of creators and inspire garments that reflect the purest essence of being.
