

HONG KONG - LOS ANGELES - NEW YORK - PARIS - SHANGHAI

RESULTS SPINCLUB NEW YORK

AUTUMN/WINTER 2026-27

8-9 JULY 2025

YARNS – FIBRES – KNITWEAR – KNITTED PRODUCTS

A RECORD PARTICIPATION

This session attracted 487 textile industry representatives and 249 companies, a record since SPINEXPO was launched in New York. 258 visitors from 130 companies on the first day, 212 visitors from 119 companies on the second day, and 17 returns for the second day.

It is not easy to understand this success, given the complicated context of the moment, with the question of “tariffs” still unclear, and the economy in the doldrums. There was little concern among visitors, and relatively little reticence about prices - unlike in Paris, where buyers were very “price conscious”.

One might think that this unexpected attendance represents a need to find alternatives to the suppliers already listed. This is only a guess, as no obvious answers could be drawn from this session.

The two floors are now working well, with a working area, The Studio, and a discovery and relaxation area, The Gallery. We saw a real study of the knitwear, circular and weaving swatch constructions of the trend presentations, with many questions from visitors. This underlines the search for new products and a greater focus on innovation.

Joint trend presentations by exhibiting companies (M.oro and Yarns & Colors for Cashmoria), Naia Eastman for Shi-Kwan, strengthened the overall presentation, and we are interested in continuing this type of partnership.

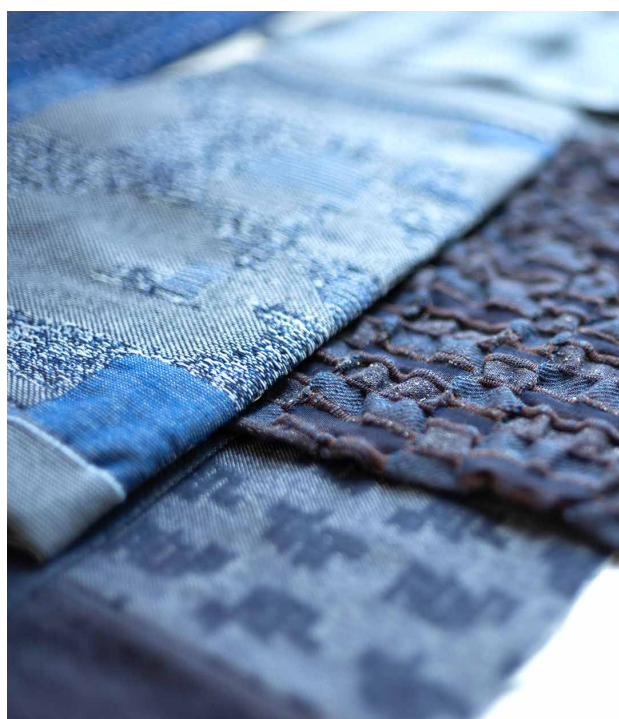

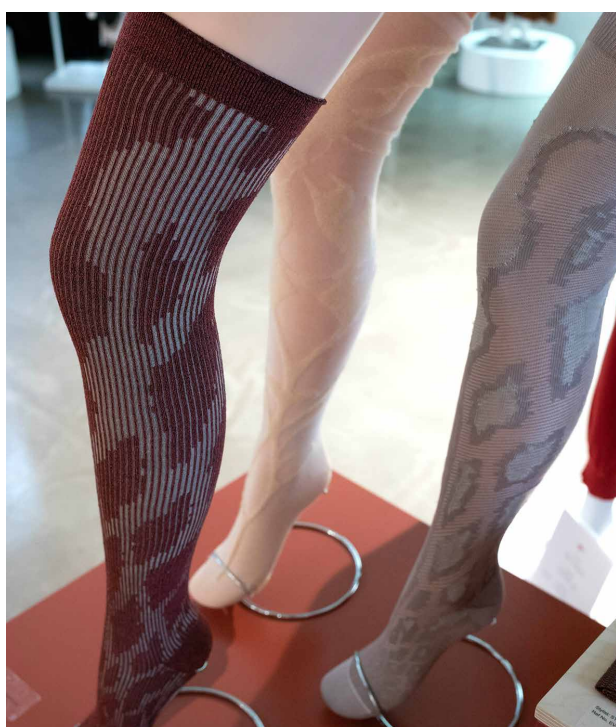

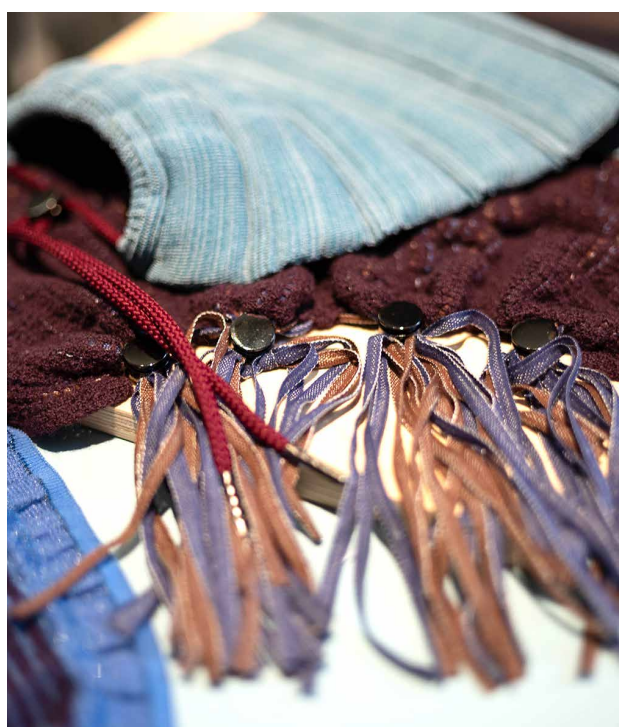

We've attached a list of the companies that have visited on days 1 and 2, an impressive list that doesn't seem to be missing many of today's top-performing brands.

*Pitti Immagine Filati having - once again - changed its dates, obliging us to bring forward **the dates of the next session, which will still be held at the current site, on January 14 & 15, 2026.***
