EXTRAFINE MERINO AND BLENDS

HUBO

FN 2201006

2/60 Nm - 100% Extrafine Merino Wool

Bringing in advanced equipment from France and Germany, and applying new spinning technology, this wool collection has a delicate touch, ultrafine texture, excellent pilling grade and stress-free softness.

SÜDWOLLE

BALTORO PRO GRS

*2/28 Nm - 70% Merino Extrafine 19.5µ anti-shrinkage
30% High Bulk PES GRS*

GRS Certified Polyester is environmentally friendly and contributes to sustainable development.

BY WAY

2/30 Nm - 100% Merino Extrafine 19.5µ anti-shrinkage

A thick yarn and a fine yarn are merged to make a fluffier, softer and lighter yarn than the traditional merging of two fine worsted yarns. Perfect for making jumpers and giving a different style effect.

DARWIN

*2/60 Nm - 85% Merino Superfine, super 120'S,
17.5µ anti-shrinkage - 15% cashmere*

17.5 micron Merino wool is combined with cashmere for a double layer of softness and unique skin pleasure.

Especially suitable for the delicate Asian skin.

Suitable for Autumn and Winter, for home and leisure.

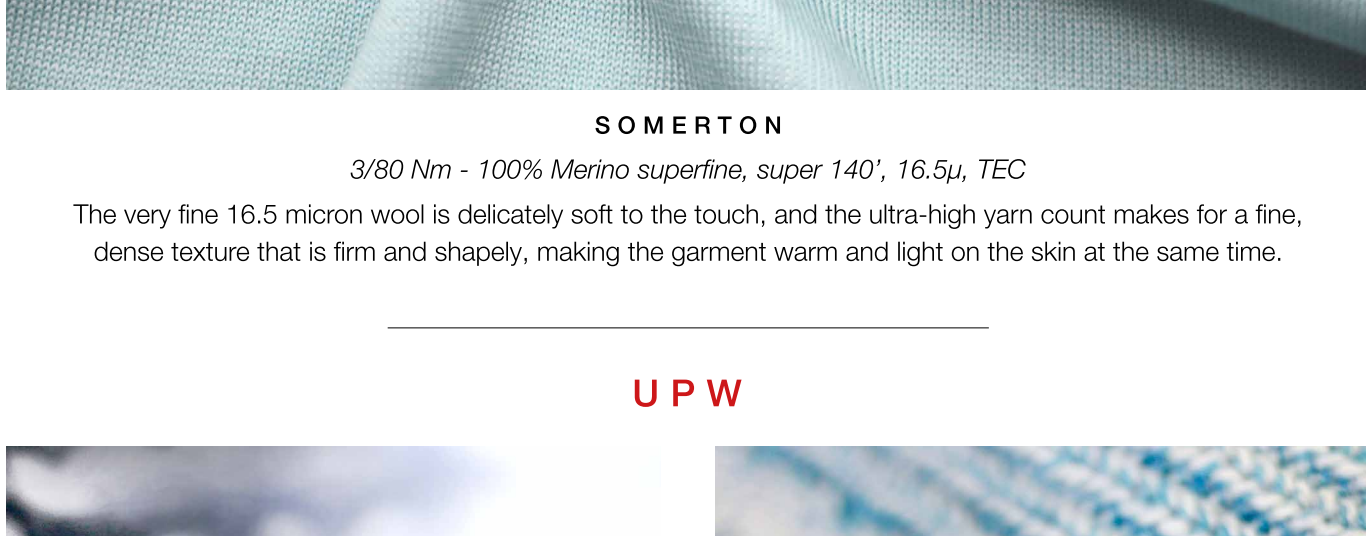

RUNDA

*2/60 Nm - 70% Merino superfine, super 120',
17.5µ, anti-shrinkage, 20% linen - 10% silk*

Very fine Merino wool for softness and comfort.

The linen fibers are left white for a unique fabric style.

The introduction of luxurious silk adds an extra touch of subtlety.

SOMERTON

3/80 Nm - 100% Merino superfine, super 140', 16.5µ, TEC

The very fine 16.5 micron wool is delicately soft to the touch, and the ultra-high yarn count makes for a fine, dense texture that is firm and shapely, making the garment warm and light on the skin at the same time.

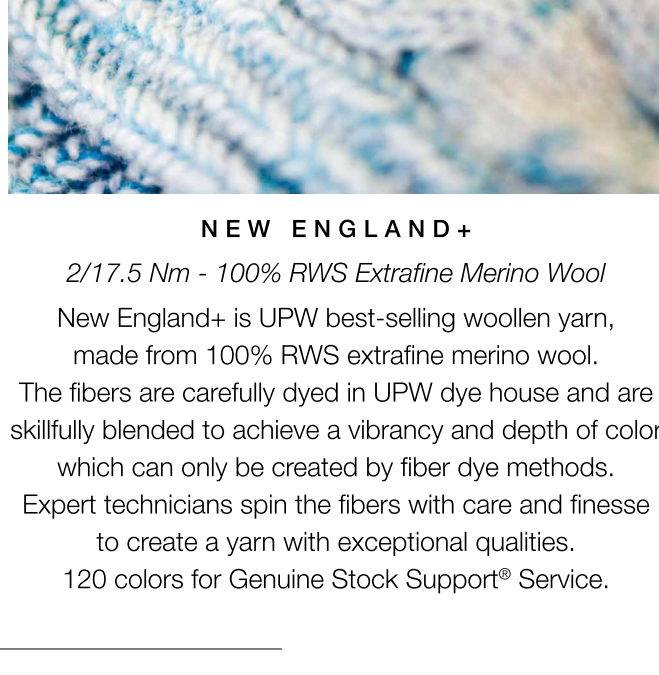

UPW

MIRAGE ECO

*2/34Nm - 55% RWS Extrafine Merino Wool
45% Cotton (machine washable)*

Mirage Eco is a luxurious blend of top quality RWS extrafine merino wool with soft cotton fibers, for a naturally sophisticated and smooth handle for fine gauge knitwear. It is a great yarn for every season.

NEW ENGLAND+

2/17.5 Nm - 100% RWS Extrafine Merino Wool

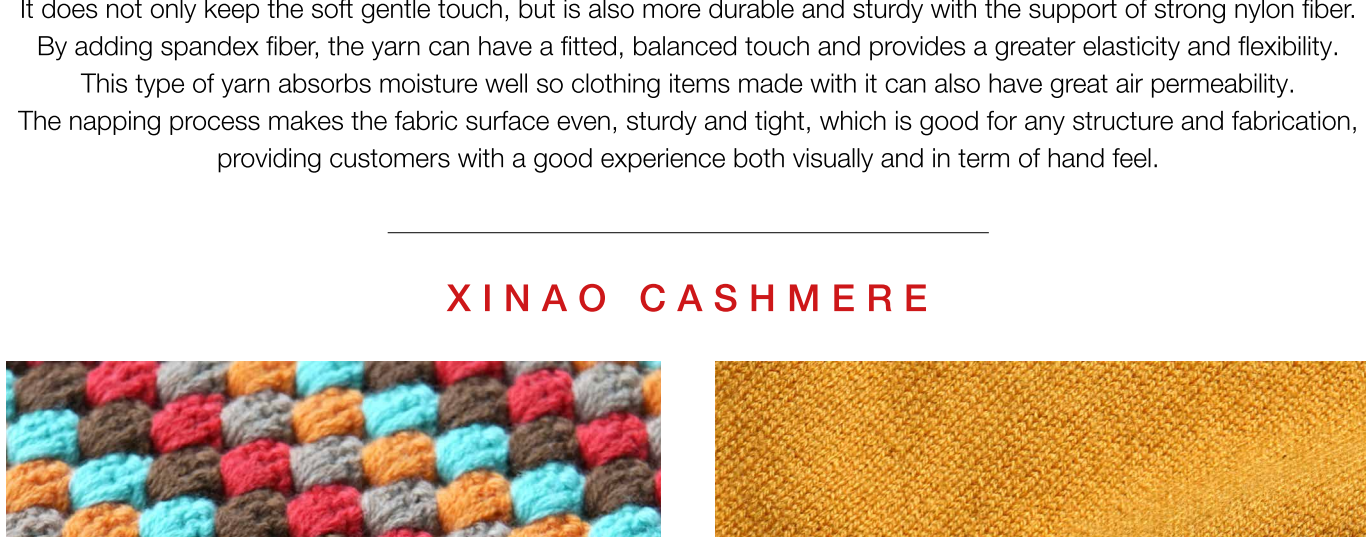

New England+ is UPW best-selling woollen yarn, made from 100% RWS extrafine merino wool.

The fibers are carefully dyed in UPW dye house and are skillfully blended to achieve a vibrancy and depth of color which can only be created by fiber dye methods.

Expert technicians spin the fibers with care and finesse to create a yarn with exceptional qualities.

120 colors for Genuine Stock Support® Service.

ZHONGXIN

JSM-D27011 VELA

1/26.5 Nm - 58% Extrafine Merino Wool - 35% Nylon - 7% Spandex

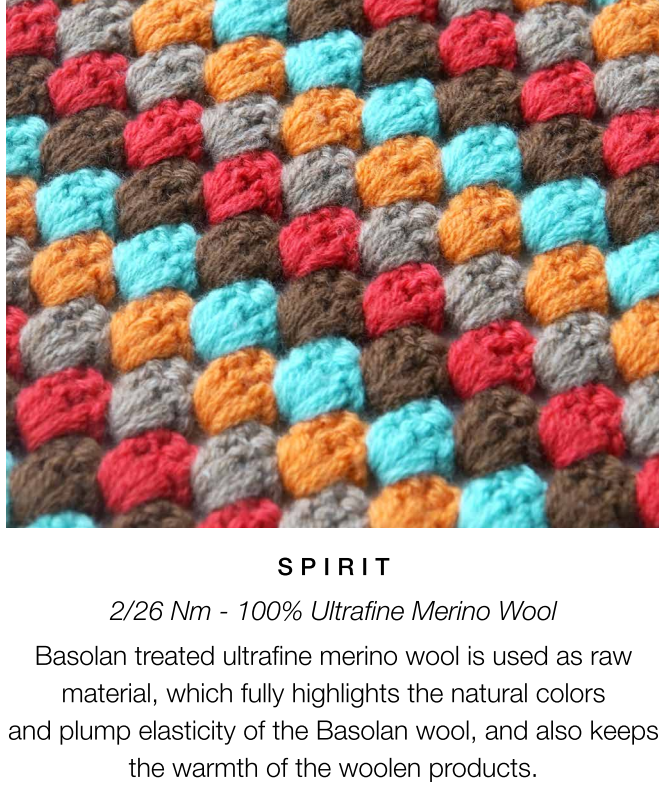

This type of yarn is mainly composed of high-quality merino wool, blending with nylon fiber.

It does not only keep the soft gentle touch, but is also more durable and sturdy with the support of strong nylon fiber. By adding spandex fiber, the yarn can have a fitted, balanced touch and provides a greater elasticity and flexibility.

This type of yarn absorbs moisture well so clothing items made with it can also have great air permeability.

The napping process makes the fabric surface even, sturdy and tight, which is good for any structure and fabrication, providing customers with a good experience both visually and in term of hand feel.

XINAO CASHMERE

SPIRIT

2/26 Nm - 100% Ultrafine Merino Wool

Basolan treated ultrafine merino wool is used as raw material, which fully highlights the natural colors and plump elasticity of the Basolan wool, and also has the warmth of the woollen products.

HEARTY

2/26 Nm - 100% Extrafine Merino Wool

100% machine washable woollen wool, with anti-shrinkage treatment, not only retains the rich and soft hand feel of woollen wool, but also meets the standard of machine washable. The fabric is quite rich in style, with better resistance to pilling.

STERLING

2/26 Nm - 70% Ultrafine Merino Wool - 30% Cashmere

This product not only maintains the natural soft luster and plump elasticity of Basolan wool, but also has the soft and sticky hand feel of cashmere, and is one of the main products of cashmere/wool blend yarn in Xinao.

RETREAD

*2/26 Nm - 70% Extrafine Merino Wool
20% Recycled Biodegradable Nylon - 10% cashmere*

The product contains 70% anti-shrinkage wool, the suede is smooth, flat and machine washable, 20% biodegradable nylon makes the fabric more wear-resistant, the addition of 10% cashmere blend, gives the fabric a thick and rough texture.

ZHEJIANG XINAO

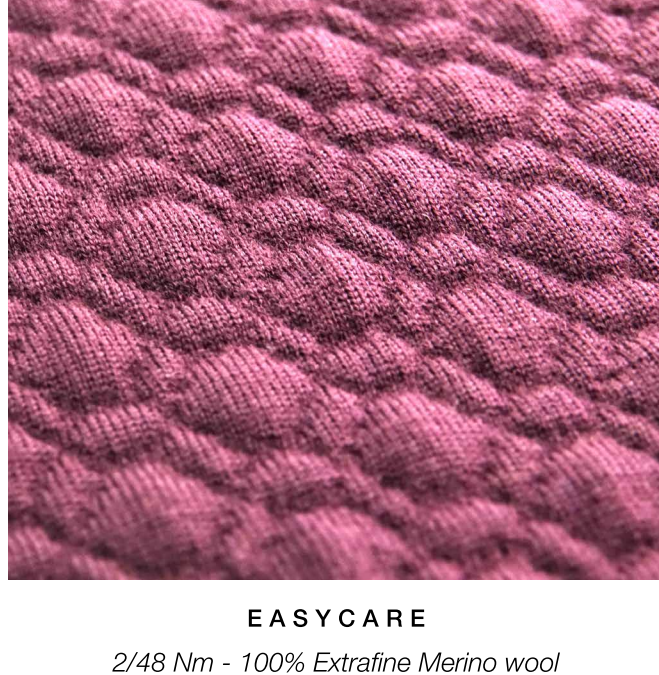

CASHFEEL

2/48 Nm - 100% Extrafine Merino Wool

Yarn of Cashfeel® is one of the most consistently popular products in Xinao

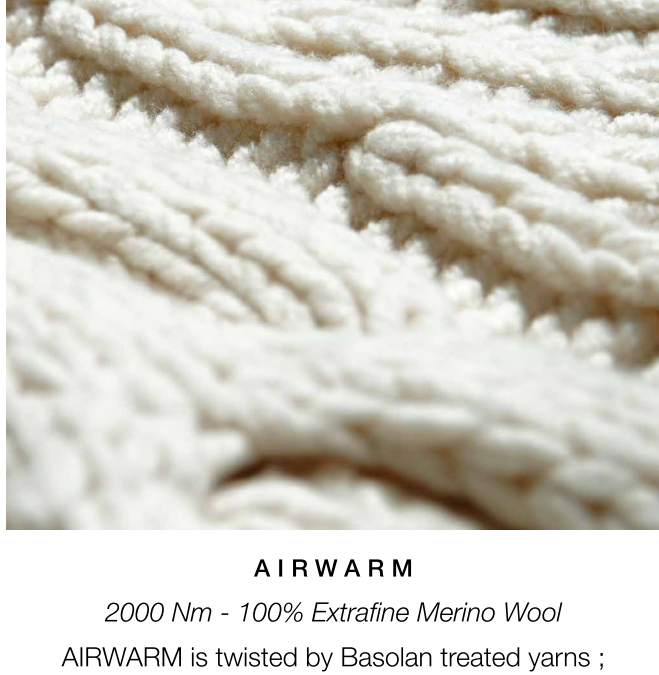

and the Basolan treatment gives it a fluffy, soft hand feel and vibrant colors.

EASYCARE

2/48 Nm - 100% Extrafine Merino wool

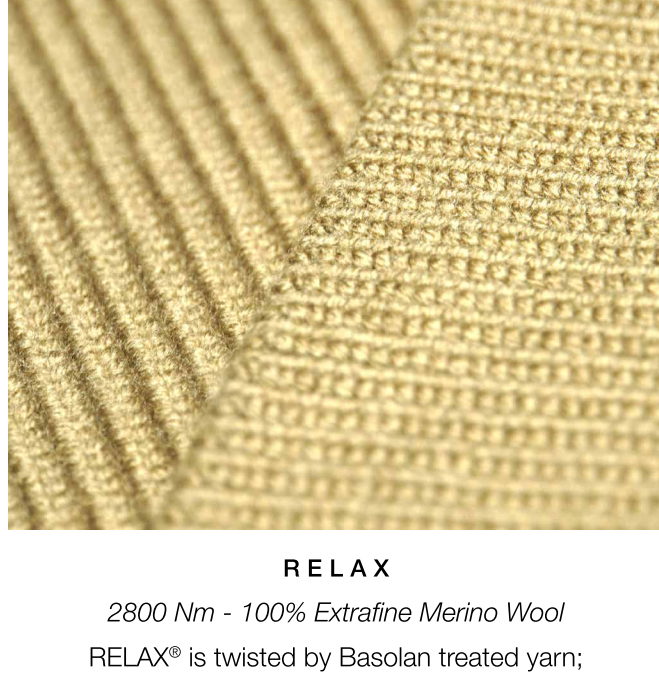

Yarn of EASYCARE® is made of 100% Australian extrafine merino wool. The anti-shrinkage treatment on the wool top makes the yarn meet the machine washable standard. Also, fabric made of this yarn has a clean surface with clear texture.

AIRWARM

2000 Nm - 100% Extrafine Merino Wool

AIRWARM is twisted by Basolan treated yarns ; this yarn has been developed for a range of coarse gauge flat-bed machines, i.e. 3GG. Garments made of this yarn are fluffy, lightweight and colorful.

RELAX

2800 Nm - 100% Extrafine Merino Wool

RELAX® is twisted by Basolan treated yarn; this yarn was developed for a range of coarse gauge flat-bed machines, i.e. 3GG, 5GG. Compared with traditional knitting products, surface of the fabric is cleaner and more colorful.

TOPWASH

2/60 Nm - 100% Ultrafine Merino Wool

Yarn of Topwash® is made from 100% Australian ultrafine merino wool.

The anti-shrinkage treatment on the wool makes it meet the machine washable standard.

Also, fabric made of this yarn has a clean surface with clear texture, and it is soft and skin-friendly.
