## ANTI-SHRINKAGE & FANCY MERINO

### ZHONGDING

#### CASHTOUCH

2/48 Nm - 100% Mercerized Merino Wool 17.5um

With bright colors and clear texture surface, this yarn is delicate, light weight, comfortable to the skin. Mercerized anti-shrinkage treatment does not only give the silky and smooth feeling, but also the softness like cashmere.

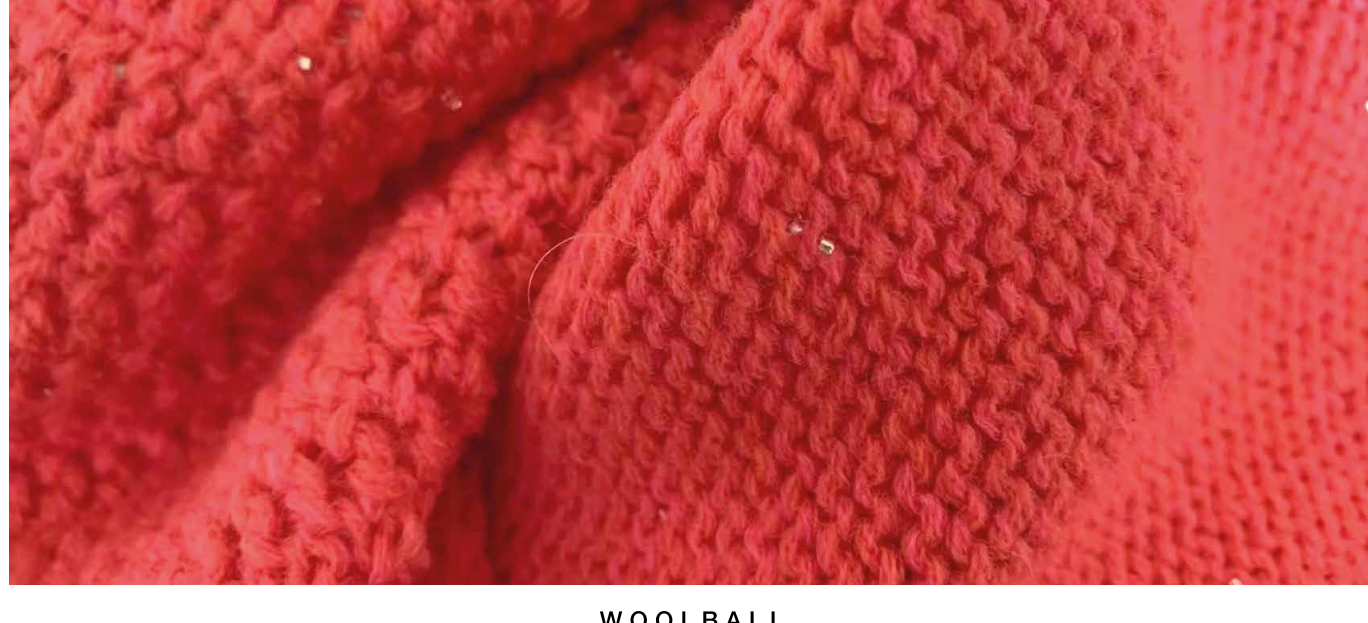

#### AGGIE

2/30 Nm - 100% Machine Washable Mercerized Merino Wool 18.5um

Glorious colors, silky hand feel and super softness, anti-shrinkage.

### BEST SHAN

#### WOOLBALL

1/7.4 Nm - 98% Wool fine Merino - 2% Glass

Super glass yarns, whose composition can be customized and adjusted to super cashmere or mohair according to the needs of customers.

## ECO-FRIENDLY - RECYCLED

### SÜDWOLLE

#### PURE-X FINE

30/2 Nm - 100% Merino Extrafine, 19.5μ, untreated

Pure X Fine Yarn, made from 100% untreated Merino wool, comes from nature and blends into nature with zero stress on the environment.

### NEW CHENGYU

#### 1/21 S

100% Polyester (60% recycled Polyester - 40% Polyester)

This yarn belongs to the environmental regeneration series, suitable for making sweaters and socks. There are 149 colors to option. It has nice handle, suitable for all seasons, good performance in anti-pilling, reaching to 3.5 - 4.0 grade; exist in a variety of gauges for any season: 3-5-7-9-12 GG

### UPW

#### NOUVELLE ECO

2/32 Nm - 5% Cashmere - 95% Organic Cotton (Machine washable)

Nouvelle Eco is UPW signature cotton/cashmere yarn with all the freshness of cotton and the softness of cashmere. It has a very broad color palette to choose from, and is a sustainable option with the organic cotton.

### YARNS & COLORS

#### CRAFT

4/101000 Nm - 3/101000 Nm - 100% Cotton

CRAFT uses environment protection and Class A, natural cotton. It can be degraded in original ecology and can effectively reduce pollution. The unique porous structure of fiber is conducive to water vapor circulation. This makes it refreshing, breathable, and comfortable to wear. It feels soft and fine, and does not easily shrink or deform.

### WINNING TEXTILE

#### SLIMCOSE

2/95 Nm - 75% Recycled Viscose - 25% Nylon

Slimcose is made of recycled viscose filament with fine yarn count and noble appearance. Especially with special high twisting technology, the quality has a soft hand feel, delicate and slim, light and cool.

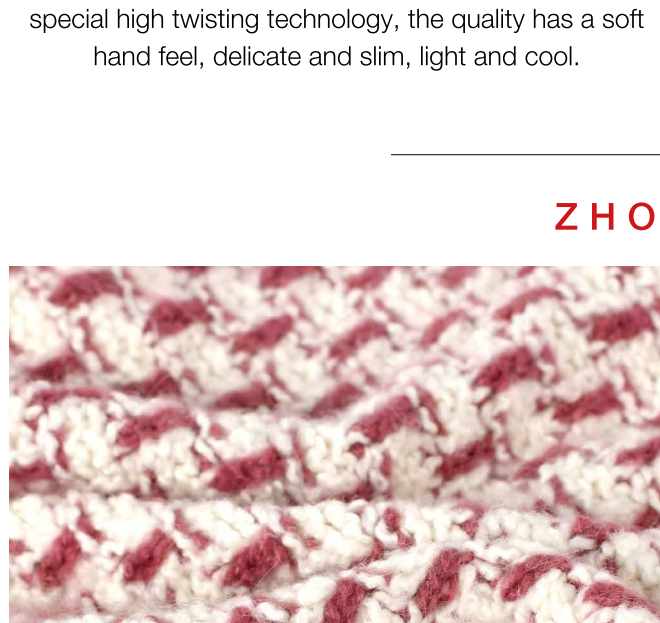

#### ELASCOSE

1/32 Nm - 83% Recycled Viscose - 17% Elastic

Elascose is made of recycled viscose and elastic combined with special twisting technology. The product itself has superior elasticity, high recovery and a dry hand feel, and is moisture breathable. It is comfortable and crispy.

### ZHONGXIN

#### ZXC-1691826R - NERISSA

2/16 Nm - 40% Seawool - 30% Recycled Nylon

27% Super Wash Wool - 3% Cashmere

This is an eco-friendly classic blended yarn, by the addition of seawool, recycled nylon and other eco-friendly fibers, this formula can help create a green, conscious concept for the product while wool and cashmere make the fabric softer, smoother and airy for skin.

#### ZHN-04040R CACIA

1/3.5 Nm - 55% Cotton - 37% Recycled Polyester

7% Nylon - 1% Spandex

Zhongxin's classic coarse count fancy blended yarn combines recycled polyester and other synthetic fiber, provides knitted fabric with a wool and cashmere-like soft touch but with a more affordable price range.
