WELCOME TO THE WORLD OF SPINEXPO™

A UNIQUE KNITTING AND SPINNING EVENT

You can do everything with a yarn:

handle it, weave it, knit it, crochet it, make jewellery
and accessories such as hats, scarves, gloves, socks,
sports shoes and home furnishings.

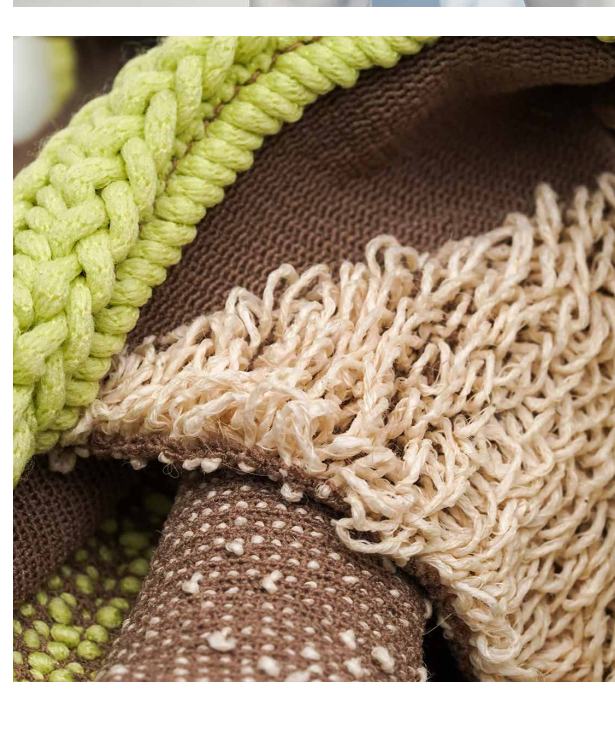

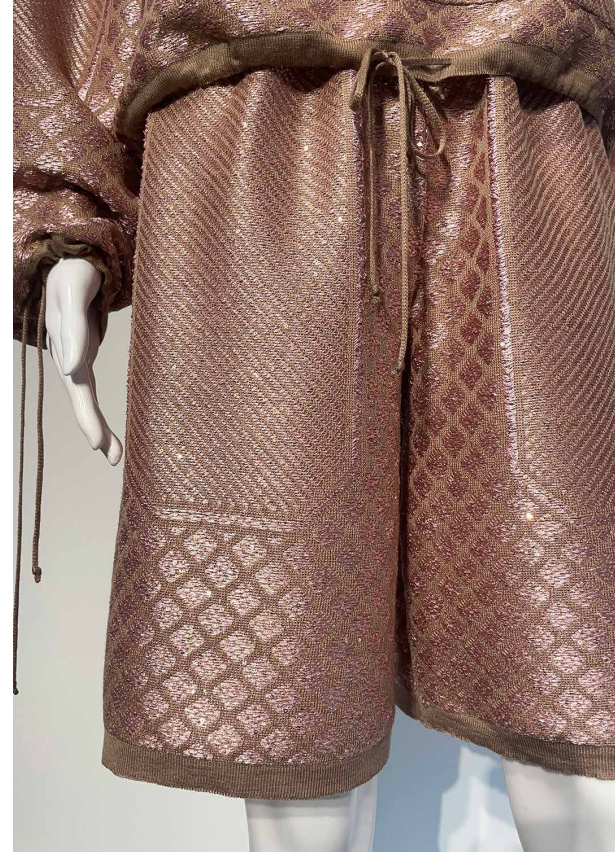

Yarn is essential and surrounds us throughout our daily lives.

Yarn is the starting point of any creative journey and yarn
is SPINEXPO™'s speciality.

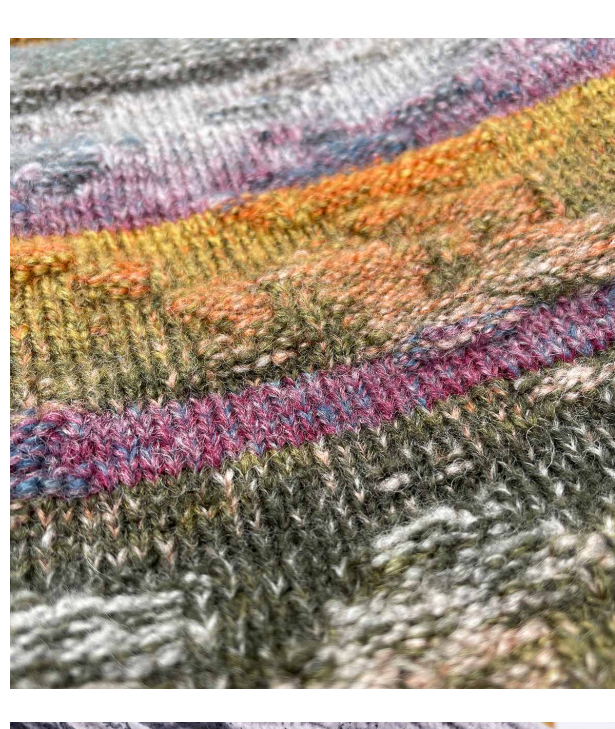

For AW 24-25, in the course of our journey into « From Tradition to Modernity »,
our second set of trends is EXPERIMENTATION,

a multi-faceted theme resolutely focused on the renewal of our values
and our open-mindedness, with social and environmental sustainability at its heart.

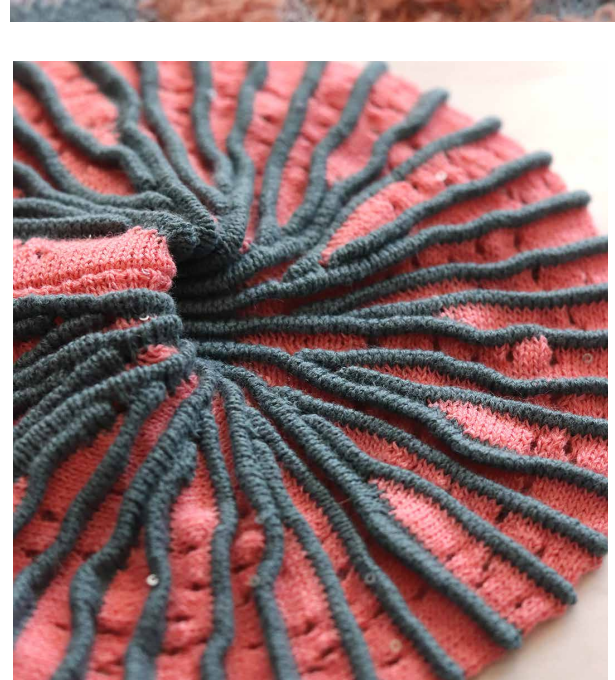

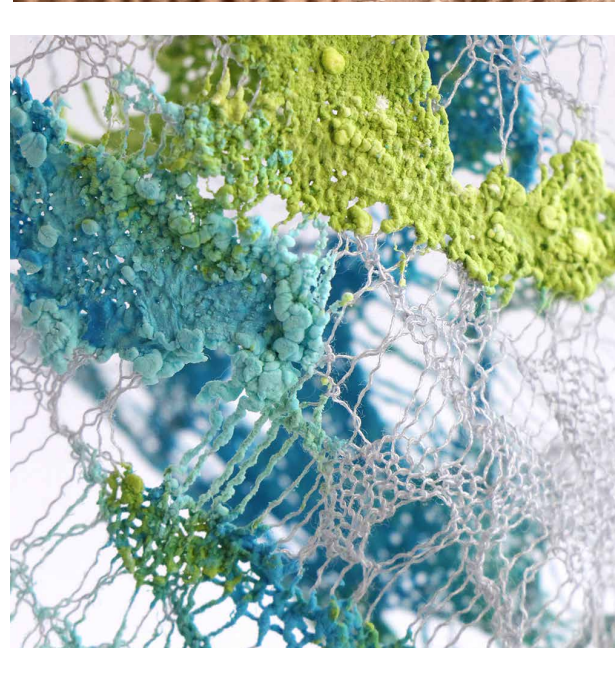

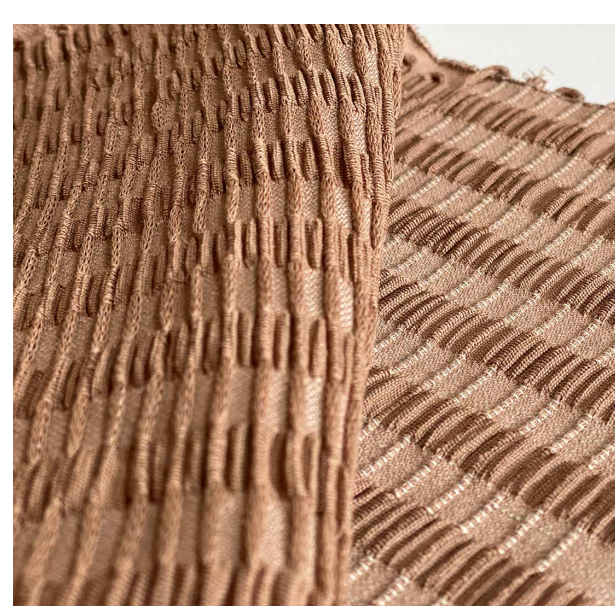

Why do we try to solve problems only when they cause too much harm? How can we focus on prevention? Should we start adding "where is it coming from" to "where it is going"?

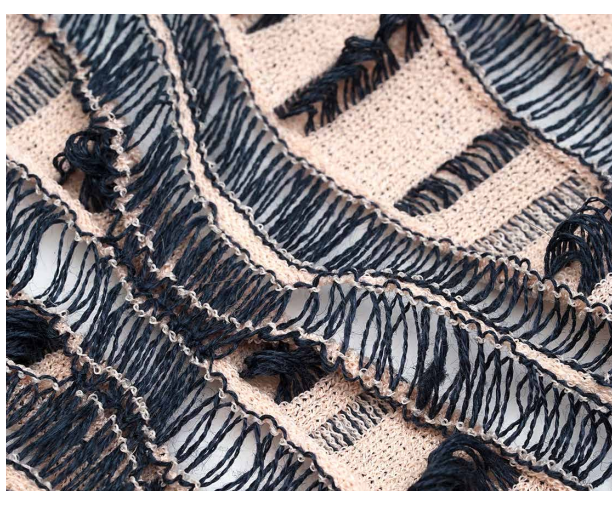

Our inspiration is one of refined elegance, a style inspired by the philosophy of the "shakers", where sustainability and environmentally-friendly practices, the importance and power of water, regenerative agriculture and the trend towards equality between men and women were a way of life. Simple yet perfectly conceived shapes, where elegance remains a key element for gender-neutral clothing that revives traditions and classic references by reinventing them, a new aesthetic that combines craftsmanship and the know-how of designers and makers.

Experimenting with materials to find solutions for a better world, with a question about the eternal impact of materials and products on the planet. Today, we can reuse and recycle a wide range of materials, and waste has become gold. Many exhibitors are working on a '0 carbon' orientation for their products. But are we often too short-sighted to foresee the future of the materials utilised?

This multi-directional presentation will be accompanied by an audiovisual film in which we will be able to see how gender blurring refers to the breakdown of traditional gender roles and expectations, and how it can manifest itself in various ways, such as the blurring of fashion or gendered styles, or the acceptance of non-binary gender identities.
