SPINEXPLORE IS EVOLVING!

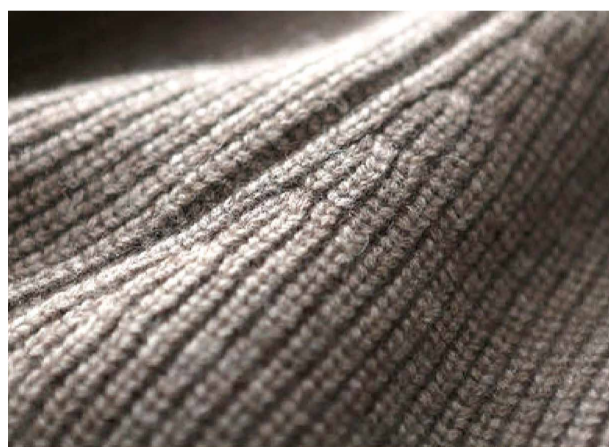

SPINEXPLORE is the trend area of SPINEXPO™ dedicated to a selection of products presented by the show's exhibitors.

At a difficult time for markets everywhere, with the acceleration of competitive pricing as well as the prospect of stricter regulations being applied by many importing countries, only reasoned and reasonable innovation can boost purchases.

In the face of the somewhat suicidal practice of dumping engaged in by some suppliers, the attraction of new products combining modernity and technicality meets the needs of many brands who also want to make a difference by transforming their approach.

For the 41st edition of the show, SPINEXPLORE is taking a new direction and focusing on Research & Development and improvements to the technical processes involved in making yarns, new dyeing techniques, steps towards more sustainable products and the aim of achieving "Carbon zero", and on all other forms of product evolution.

SPINEXPO has selected five world-renowned spinners, each of whom, in a specific area, will be presenting what they wish to showcase this season.

They are Lugang Science & Technology, Guotai Hubo, Donzhige Xinnuo, Loyal Light and Biella Yarn by Südrolle.

The presentation will be complemented by a selection of products from the exhibiting spinning mills in a central area, accompanied by explanations of the products on display.

Fashion depends on the development of spinning techniques. Yarn is at the heart of all creation and is the watchword of SPINEXPO.
