

HONG KONG - LOS ANGELES - NEW YORK - PARIS - SHANGHAI

SAVE THE DATES

AUTUMN WINTER 2026-27 COLLECTIONS

YARNS – FIBRES – KNITWEAR – KNITTED PRODUCTS

SPINEXPO™ is a select international exhibition in the spinning and knitwear sectors. All exhibiting companies have obtained international traceability labels, are partners in the recycling industry, and promote energy-saving in manufacturing processes.

SPINEXPO™ also hosts an extensive range of companies specializing in knitwear design and manufacture. Most of these have their collections and a Research and Development department capable of working directly with international brands.

S&A

S&A is the new line of the LUGANG Group and is establishing a strong and integrated supply chain across Asia.

Centered on Vietnam, S&A is developing an overseas production network that builds a new textile industry ecosystem around the group existing manufacturing base. The aim is to use its color card STOCK services to significantly scale up production lines in both China and Vietnam.

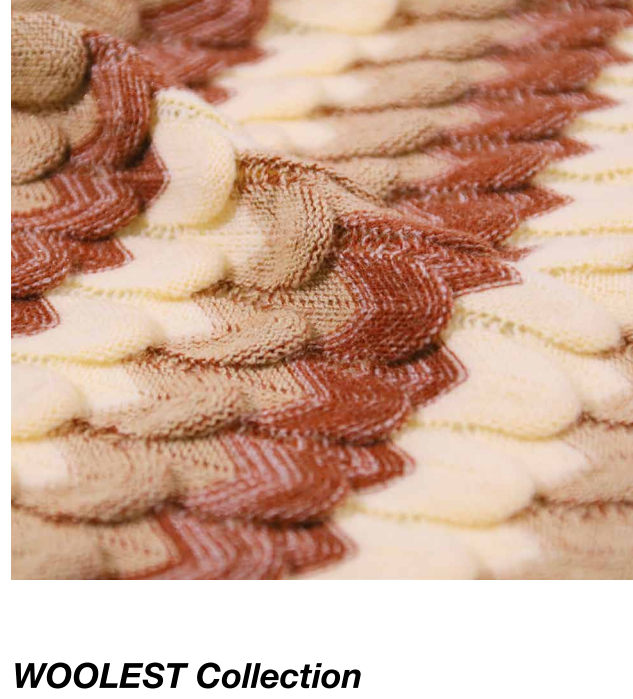

Sustainable Practices to Attract Eco-Conscious Consumers will start with STOCK services. S&A is expanding partnerships with more sustainable and traceable raw material suppliers and aim to deliver trend-forward designs while improving inventory management — optimizing stock levels to reduce costs and avoid overproduction.

This approach will strengthen the entire supply chain, making the textile industry more resilient and competitive, with the goal of becoming Asia's leading fashion manufacturer.

Italian High-End Style x New Chinese Brand Image: S&A is expanding its yarn STOCK services in Italy, aiming to realize yarn production locally. Guided by the concept of "The elegance of yarn, the art of fashion," the line is combining Italian high-end design with luxury and artistry to create premium yarn collections, helping shape a new brand image for the China-based mill.

S&A's Two Major Product Lines in Full Drive: Woolen **WOOLEST** and worsted **FINEST** pushing forward into the ultra-luxury yarn market. S&A will work with outdoor and sports brands to develop functional products. Looking ahead, the company also plans to establish its own brand finished product line.

WOOLEST Collection

LUNA LUX

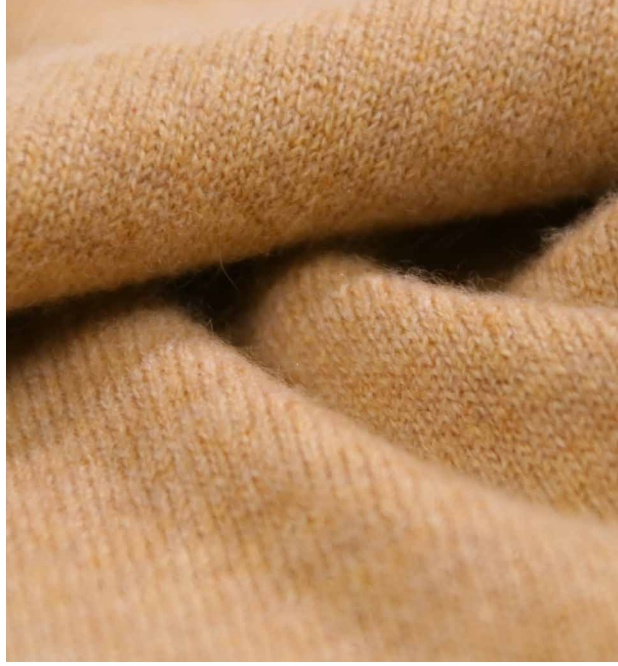

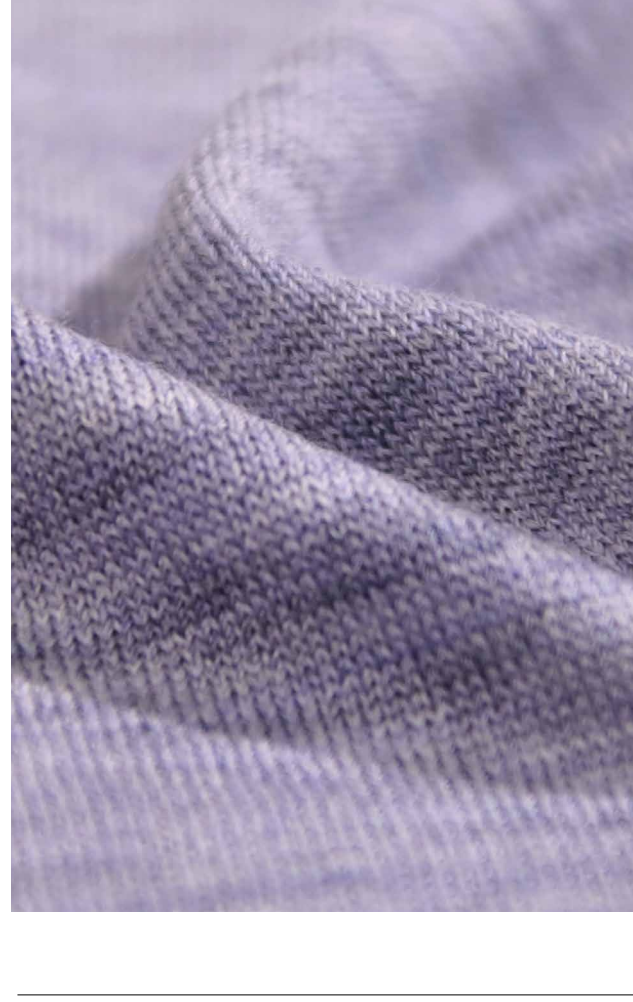

Crafted from premium pure cashmere, LUNA LUX offers outstanding warmth. With a compact and even yarn structure achieved through refined craftsmanship, it features soft, elegant tones. Ideal for high-end knitwear such as sweaters, scarves, and shawls, it delivers both luxurious texture and exceptional comfort.

WOOLEST-26

Made from superfine Merino wool, WOOLEST-26 has a firm and substantial texture with excellent warmth, durability, and resistance to wear and wrinkles. Suitable for coats, jackets, and scarves, it presents a refined, natural look that balances style with practicality.

FAMILIE

A woolen blended yarn combining multiple high-quality fibers. The natural texture of wool and cashmere, paired with a dense and elastic yarn structure, makes it well-suited for warm winter garments such as sweaters and scarves.

FINEST Collection

FINEST-48

A worsted yarn spun from superfine Merino wool sourced from top Australian farms. It is lightweight yet warm, with a smooth, skin-friendly finish developed through specialized spinning techniques — offering all-day comfort even for sensitive skin.

FINEST-80

Made with 120s ULTRAFINE Merino wool, this worsted yarn features a uniform fineness and a smooth, soft feel. Its unique hollow structure enhances warmth, while its elasticity, durability, and resistance to pilling make it especially suitable for performance and activewear.
